God bless you.

Greetings from your Bonilla Flores missionaries from El Salvador. August was a month full of much activity. Thanks to God we finished the month and we keep working. We never though that it will come days in which we find another person outside so ugly, because when we have the opportunity to speak with someone the first thing they do is leave so we won’t get near.

In spite of this we are able to make many visits. In some rare cases, some people will open the doors of their houses so we can come in.

Like you found out, our Brother Chepito was delicate of health. God decided to take him to His presence. The family let us preach in his funeral and among the people we presented the plan of salvation and various made the prayer receiving Christ as their Saviour.

In other news, the doctors indicated that our Brother Carlos Hernandez who received a bullet in his throat, wouldn’t be able to speak and only three days was given to him. Today at this hour, our Brother Carlos is found in his house with his family and in spite that is little you can hear his voice, he is recovering and can speak. Glory to God.

In this month we were able to give a basket of food for each family of the church and we were able to give bags of food for give in an area called La Trinidad.

Something special, some year ago, I came to a house and a girl gave me a cup of water but in the water there was a leg of a cockroach. When I saw the leg of the animal, I prayed to the Lord and I drank the water and with the moist ache I tried to remove the leg of the cockroach so not to drink it. Well in these day, something similar happened. I came to a house and a girl of 3 years old when running out to give me a cup of water. When I saw the cup, it was dirty. I thought, Lord, it is happening again. When I decided to drink the water, a lady came out and said, “Pastor, don’t drink the water. The girl has been playing and she decided to give water with which she is playing.” She saved me from a good stomach problem. Jejejeje. But this girl had a good attitude toward visitors, a good attention from a three year old.

In this month of August we celebrated the month of the family in our church. WE thank God for this congregation that he has given us. In this month we are fixing the floor of the temple and when we will finish, the chairs would not be able to be used because they are plastic and from the year 2002 and already old of which we need to buy metal chairs. The cost is $25 dollars each one. So we give you this news for which you can help us buy the chairs. We need for the moment 100 chairs.

Beloved brethren, we don’t have words to thank you for what you do for us. Thank you much for your faithfulness in supporting us financially. We pray to God to multiply all that you send. Thanks to God my three children are well and we pray for you asking God to watch over you and take care of you from this sickness.
