"God is our refuge and strength, a very present help in trouble".

Dear Ones in Christ,

Thanks to God for this opportunity to write to you again, as I am sadly reporting on condition here with us.

Well, most of you have heard of my encounter with the Covid virus. I spent 10 days in the hospital under some terrible condition. Thank God, after several tests and medication, I am released and at home rebuilding my strength. I lost a good amount of body weight, it shows that I have low blood, and my friends came from everywhere to give the blood. I am doing well at home, I am eating and drinking and exercising very well. My blood pressure has improved, and I am doing well, Glory to God.

My biggest problem at present, I have lost sight in one eye, and that has set me back considerably. The loss of sight is not due to the Covid virus, the eye specialist said something has been growing behind the eye for a long time and it has finally closed sight from the left eye. I was informed that this can be corrected later under surgery.

At present, I am seeking help from a neurologist in the US to help me. So, I am coming to our FBHM Jubilee in July, hoping to make some contact for surgery and the recovery of my eye sight.

My wife, who has Dementia, is doing well, she is quite stable and busy around the house.

Concerning our ministry, during my time at the hospital and my recovery process, there was no church services, but we intend to resume services very soon with a new preacher who has volunteered to help up. I am preparing now to pay the hospital bills and the purchase of the medication.

I want to send thanks to all of you who are praying for us and for helping us with your financial help.

God continue to bless you all!

Yours in Christ,

Claudius & Lorna Harry
