It is our prayer to be able to represent you in this country and we have mention and believe that our God is powerful to do anything. For that reason I want to let you know what He is doing with us in this place.

Almost two months of realizing one year in the field, we have seen the hand of God and how He has guided us until today. Like I have mentioned to you before, we have supported in the past other ministries, praying and finding the direction of God, thinking in starting a church and we started winning souls and finding a place to congregate but we didn't receive an answer. Now by the grace of God and with His direction we have established ourselves already in a region that predominates Islam and Hinduism. Here we are going to work in taking a church that was founded 20 years ago in which right now there is a membership of around 25 people. The current pastor is sick and has already retired but the church has a building with a capacity of some 200 people, Sunday School classrooms and also a small church in the interior of the country (Kairuni), it is in the jungle.

We have seen how God has put the things in order to take this step which it wasn't in our plans and we are taking as a base these two churches in which we are already working to establish other churches with the natives and also among the Hindus. We are conscious of the investment that you have made as a church in the work of God and in our family and by the grace of God I assure you that it has not been in vain. We keep counting with your prayers and your faithful support. I will keep you informed of the results of the work of God in this ministry. God bless you.
