Prayer Request

Thank you for reading our letters and reports of which we are doing in this precious place. The motive of the present is first of all ask of your prayers for my second son Ethan Ariel of 6 years old, which in this week was diagnose with a very severe sickness that attacks the thick intestine with a baterial almost deadly if it is not treated effectively. The sickness is called typhoid fever.

As a pastoral family, we have an income of about \$2000 quetzales (\$285 US dollars) a month plus other income in diverse jobs that I do. The situation is that we have spend our income in peditrics, tests, food, transportation, medicine, etc and at last for lack of more funds we went to a national hospital, which is a blessing in medicine and other medical expenditures. For these days, we need to do more exams outside the hospital because they don't them there and a revision with a specialist about this sickness, for which we ask your prayers and a financial support in whatever you can help, it will be of much blessing if you do it for me and mainly for my son. Thank you much and may God bless you.
